

FIND A COLORECTRAL SURGEON

Dr GARY MCKAY

(B.Med, FRACS, CSSANZ)

QUALIFICATIONS

Dr Gary McKay is a specialist Colorectal & General Surgeon, a fellow of the Royal Australasian College of Surgeons (RACS), a member of the Colorectal Surgical Society of Australia and New-Zealand (CSSANZ), and is accredited with the Gastrointestinal Enterological Society of Australia (GESA) for training in [gastroscopy](#) and [colonoscopy](#).

Dr McKay is committed to providing you with the latest safe, minimally-invasive surgical techniques, including [endoscopic surgery](#), and [transanal endoscopic microsurgery \(TEMs\)](#). He is also a keen advocate of [key-hole colorectal surgery](#) which he has shown in a large series to not only result in improved cosmesis and less pain, but fewer complications following surgery.^[1] This allows a quicker recovery and return to work. Dr McKay has a “no-gap” policy for patients having endoscopy and colonoscopy. Dr McKay also performs [robotic surgery](#) using the Da-Vinci robot for low rectal cancers and rectopexy with this new technology allowing for better 3D vision, and more precise surgical technique.

DR ANIL KOSHY

(MBBS, FRACS, Mast Surgery, Member CSSANZ)

QUALIFICATIONS:

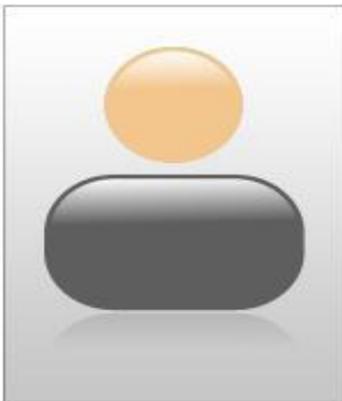

Dr Anil Koshy is a specialist Colorectal & General Surgeon, a fellow of the Royal Australasian College of Surgeons (RACS), a member of the Colorectal Surgical Society of Australia and New-Zealand (CSSANZ), and is accredited with the Gastrointestinal Enterological Society of Australia (GESA) for training in [gastroscopy](#) and [colonoscopy](#). He completed his masters in Surgery at Sydney University, and has had extensive training in exenteration and pelvic cancer surgery having worked at Royal Prince Alfred (RPA) Hospital in Sydney, and Leeds (UK).

Dr Koshy is committed to providing you with the latest safe, minimally-invasive surgical techniques, including [endoscopic surgery](#), and [transanal endoscopic microsurgery \(TEMs\)](#). He is also a keen advocate of [key-hole colorectal surgery](#). Dr Koshy also performs [robotic surgery](#) using the Da-Vinci robot for low rectal cancers and rectopexy with this new technology allowing for better 3D vision, and more precise surgical technique.

Dr GEORGE BURSLE

(MBBS, FRACS)

QUALIFICATIONS

Dr George Bursle is a Colorectal & General Surgeon and is a fellow of the Royal Australasian College of Surgeons (RACS).

He completed his post graduate specialist training in the United Kingdom (UK) and Sydney Hospital, and first became a member of the Sydney Colorectal Society in 1975. Dr Bursle pioneered key hole (laparoscopic) surgery, being the first Sydney surgeon to perform a laparoscopic cholecystectomy. Dr Bursle has a particular interest in [groin hernia repair under local anaesthetic](#) as a day procedure, [colonoscopy](#) and bowel cancer screening.

Dr Bursle has had a long-standing interest in teaching being an Associate Lecturer for the University of Sydney, and Director of Surgical Training a Ryde hospital, where he is also the Head of Department of Surgery.

FELLOW OF THE ROYAL AUSTRALASIAN COLLEGE OF SURGEONS
